PRESS

"Demon Boy is Heavy Metal Theater. It's a horror show that record labels haven't picked up yet, but they sniff the band's sanguinary trail. They'll realize the scarlet-haired fallen angel of death is a true candidate for stardom. Although he commands a small but loyal cult, the ghoulies are lining up to see what all the fuss is about. He has spent years dissecting the brains of legendary stage acts Rob Zombie, ICP, Alice Cooper, Manson, and Ozzy Osbourne and now it's the Demon Boy's time."

Louder Than Hell Magazine

"I find myself short of words on how to properly explain the incredible phenomena that is the band Demon Boy. I could go on and on but it would never do Demon Boy justice. If I have to narrow it all down into one sentence, it would be "DEMON BOY ROCKS".

Heaven Leigh Eldeen - mysytv.net

"The Demon Boy band is poised to take the entertainment industry by storm. Not since Alice Cooper and Ozzy Osbourne have music fans been treated to a more all-encompassing, theatric, and energetic experience - and it doesn't end there. More than just a character, a band, or even a show - Demon Boy is an epic comic book, labeled by industry insiders as having the potential to become the "next Crow franchise".

Dark Media City

"How refreshing it is to hear someone creating a theatrical homage to the likes of the great Alice Cooper and Rob Zombie! Fans of either, or both, this is one twisted act you must check out! Dawn of the Demon is a fun-filled romp though morbidly twisted themes with an auditory landscape that continuously fuels the fire. Demon Boy is a New York based band made up of Demon Boy on vo-kills and his minions as the band. Dawn of the Demon starts off with I Kissed a Dead Girl, a track of fist-pumping, head bobbing necro-rock. Love that guitar tone! Track two, Little Red Riding Bitch, is a grooving, cemetery bop with a twist on the fairy tale of nearly the same name. Track three, Pain, is my favorite on the album. The song starts off with a bang and is a runaway tank all the way through! "THE PAIN IN YOUR BRAIN IS THE DEVIL IN YOUR VEINS"! Track four is Ravenous and another great tune! I love the guitar riff in the beginning leading into Demon Boy."
